Retension Pharmaceuticals to Participate in the Guggenheim 3rd Annual Healthcare Innovation Conference

November 5, 2026

FALLS CHURCH, Va., Nov. 05, 2026 (GLOBE NEWSWIRE) -- Retension Pharmaceuticals, Inc. (Nasdaq: RTSN) (“Retension” or the “Company”), a clinical-stage biopharmaceutical company focused on developing medicines for the treatment of hypertension and other cardiovascular diseases, announced today that management will participate in a fireside chat at the Guggenheim 3rd Annual Healthcare Innovation Conference, taking place November 9–11, 2026, in Boston, Massachusetts.

Event: Guggenheim 3rd Annual Healthcare Innovation Conference
Format: Fireside chat
Date: Tuesday, November 10, 2026
Time: 7:30 a.m. ET

A live webcast of this fireside chat can also be accessed on the “News & Events” page in the Investor Relations section of the Retension Pharmaceuticals website.

About Retension Pharmaceuticals

Retension Pharmaceuticals is a clinical-stage biopharmaceutical company focused on developing medicines for the treatment of hypertension and other cardiovascular diseases. The Company’s lead clinical candidate, RTN-001, is in development for patients with uncontrolled and resistant hypertension.

About RTN-001

Retension Pharmaceuticals is developing RTN-001, a cardiovascular-targeted, next-generation PDE5 inhibitor designed to enhance nitric oxide signaling in central arteries not adequately reached by first-generation PDE5 inhibitors, thereby addressing a core driver of hypertension. RTN-001 has been studied in multiple clinical trials totaling 265 enrolled subjects. In two Phase 2 pilot trials, RTN-001 has achieved clinically meaningful placebo-adjusted reductions in systolic blood pressure and diastolic blood pressure in patients with hypertension. A Phase 2b trial of RTN-001 in hypertension is ongoing. RTN-001 is being developed under an exclusive worldwide license from Sanofi S.A.
